Financial Review

Basis of presentation

Effective October 1, 2024, the management has established a new organizational set-up of the Company articulated on three business groups:

- "Chief Transition & Financial Officer" focused on maximizing the value of the transition businesses;
- "Global Natural Resources" designated to maximize margins all along the oil & gas value chain leveraging on our assets portfolio and operational excellence;
- "Industrial Transformation" designated to accomplish the restructuring of the chemicals and downstream businesses.

Based on changes in the attribution of profit responsibilities, Eni's reportable segments have been redefined as follows:

- Exploration & Production, which is now integrating results of the activities of marketing and trading of oil&products to enhance synergies and to fully capture margins across the value chain;
- Global Gas & LNG Portfolio and Power considering that gas-fired power generation activities are ancillary to gas supply and trading activities;
- Enilive and Plenitude engaged in the energy transition, which are sharing a common strategy of growth and value creation leveraging cross selling opportunities in the retail space;
- Refining and Chemical focused on driving the restructuring and industrial transformation of the chemical sector and of the downstream oil;
- Corporate and other activities engaged in business support activities, environmental services and the business under development of CCS and the agribusiness.

The re-segmentation of the adjusted operating profit for the 2023 and 2022 comparative periods is disclosed below:

7 Quality Review

• Body reading order checked against the two-column image.

• All 21 financial data rows compared with the source image; the “of which:” label retained separately.

• Blank cells, parentheses and thousands separators retained.

• Year headings reconstructed and repeated explicitly in the Markdown columns.

• Raw OCR transcription retained separately from reviewed output.
